

Interpreting Canada's Past: A Pre-Confederation Reader.epub !LINK!

In the first of two volumes, this reader introduces students to the major issues, ideas, and people that brought Canada into existence as a nation-state. This textbook, written by an expert panel of historians and students, is a compilation of the first three volumes of John Saywell and Kent Monkman's acclaimed series on Canadian history. The use of primary sources helps to place the issues and events of pre-Confederation Canada in their historical context and in their global and intercontinental context. Book Description: This book uses primary sources to retell the story of Canada before Confederation. In this book, which expands and updates the original text, the author identifies key concepts from the texts and presents them as series of critical readings. In this book, which expands and updates the original text, the author identifies key concepts from the texts and presents them as series of critical readings. Revised and updated, the revised edition of this textbook contains new sections on the Conservative party and the concept of federalism, with new chapters on the history of Canadian federalism. When the Dominion of Canada came into being in 1867, the federated provinces were already a formidable British federation, with colonial experience and history. In 1867, when the Dominion of Canada came into being, the federated provinces were already a formidable British federation, with colonial experience and history. It begins with the earliest settlements, explores the growth and development of Canada's colonies, and traces the evolution of Canada's diverse societies and cultural communities. The text presents Canada in its entirety, from the pioneering days to modern times, describing the country and its peoples in a balanced and impartial manner. This textbook traces the evolution of the Canadian nation-state through a series of critical readings of primary sources, supplemented with the authors' explanations of the relationships between events and ideas, the inclusion of relevant figures, maps, photographs, and diagrams, and the use of pertinent quotations. This textbook explores the rich connections between Canada and the rest of the world from the pre-Confederation period to the present, putting into context events, developments, and ideas that have shaped Canada's development as a world power. The words that made Canada means a strong narrative with dynamic illustrations from drawings to photographs and archival documents. In this edition of The

Covering the pre-Confederation period, Interpreting Canada's Past examines the history of Canada from its earliest days to Confederation and beyond. The e-book includes detailed chronologies, questions for reading, and a unit list. The book also includes comprehensive end-of-chapter exercises, a worksheet, and a glossary. This full-colour e-book is for use with the Textbook History Reader. eCampusOntario.com Early Canadian History: A Sourcebook. Pre-Confederation Canada. Vanier Institute of the Family. Interpreting Canada's Past. The American Revolution: A Documentary History: Volume 2, 1776-1790. Cambridge University Press, 2003. . . . The other three volumes, though never published, lay in George Mason's chest, for he died on April 28, 1792, before their completion. Vol. 1, 1776-1777, was published in 2003; Vol. 2, 1778-1779, in 2006; and Vol. 3, 1780-1782, in 2007. A text that supports the WIKI. Table of Contents. Part II.
